

## October Display Table

Margaret Stone, Callow End, Worcestershire

The display table at our October meeting was particularly good. In our new venue we have more space for the display and for us to view it. It is often a focus for members to linger and chat and doing so this time my eye was repeatedly caught by something of interest. There was a good mix of plants, and vases ranged from subtle to bold, from little jewels to enormous leaves. Bob did an excellent job of describing it all and the improved sound system meant that everyone could hear him clearly. It really gave everyone a lift.
